

Refrigeration System Pressure Gauge Set

This pressure gauge set is designed for measuring pressure in refrigeration and HVAC systems. The gauges feature circular dials with multiple scales for different refrigerants.

Overview

Professional Refrigeration Gauge Set

This high-precision pressure gauge set is designed specifically for HVAC and refrigeration systems maintenance. Featuring distinct red and blue color-coded casings for high and low side identification, this tool ensures accurate monitoring of system pressures. The integrated brass fittings provide a durable connection, making it an essential instrument for technicians performing diagnostics and system charging.

Technical Specifications

Compatible Systems

- Refrigeration
- HVAC

Number of Gauges	2
Fitting Material	Brass
Color Identification	Blue (Low Side), Red (High Side)
