

Refrigerator Compressor R-134a 220-240V 50Hz

This refrigerator compressor is designed for use with R-134a refrigerant. It operates on a 220-240V power supply at 50Hz and is thermally protected.

Product Overview

High-Efficiency Refrigeration Compressor

This refrigerator compressor is engineered for reliable performance in demanding cooling environments. Designed to operate with R-134a refrigerant, it offers a robust solution for standard household and commercial refrigeration systems. With its thermally protected design and compliant manufacturing standards, it ensures both operational safety and consistent cooling efficiency.

Technical Specifications

Performance Metrics

201 W

Capacity

131 W

Input Power

Voltage and Frequency	220-240V / 50Hz
Net Weight	8.77 kg
Refrigerant	R-134a

Compliance and Safety

Safety Features

- Thermally protected
- 5.1 LRA (Locked Rotor Amps)

Certifications	RoHS, CE
----------------	----------
