

Releasable Stainless Steel Cable Tie with Dental Lock

These releasable cable ties are made from 304/316 stainless steel for strength and corrosion resistance. Featuring a dental lock mechanism, they offer secure fastening with easy release and adjustability.

Product Overview

Releasable dental lock design ensures easy adjustments and reliable hold.

Professional Stainless Steel Cable Ties

These high-quality releasable cable ties feature a specialized dental lock mechanism for secure, reliable fastening in both indoor and outdoor environments. Constructed from corrosion-resistant 304 or 316 stainless steel, they provide exceptional tensile strength and durability. The design allows for easy, quick operation and reusability, making them an ideal solution for industrial cable management and bundling needs.

Technical Specifications

Robust construction for industrial applications.

Material Composition	Stainless steel 304 or 316
Locking Type	Dental lock type
Operating Temperature	-60°C to 300°C
Packaging	100 pieces per sachet
Key Characteristics	Acid-proof, Corrosion Resistant, High Tensile Strength, Releasable, Reusable

Dimensional Data

Standard Sizes and Capacity

Model	Length (mm)	Max Diameter (mm)	Thickness (mm)
TSD-8	200	50	0.3
TSD-8	250	63	0.3
TSD-8	300	76	0.3
TSD-12	350	89	0.3
TSD-12	400	102	0.3
TSD-12	450	115	0.3
TSD-15	500	128	0.3
TSD-15	550	141	0.3
TSD-19	600	145	0.3
TSD-19	700	180	0.3
TSD-19	800	193	0.3
TSD-19	900	200	0.3
