Product Overview

Solar-Powered Outdoor Illumination

This high-performance solar garden light combines robust aluminum alloy construction with advanced lighting technology for reliable outdoor use. Designed for versatility, it features dual-tone warm and pure white LEDs with a wide-angle arm design to ensure glare-free, efficient illumination. With integrated remote control, users can easily manage lighting modes and timers, while the intelligent battery indicator provides clear status updates.

Technical Specifications

Lumen Output

3000 LM
Max Brightness

Durability Ratings

Waterproof, IK10 Rated, High-Temperature Isolation

Body Material

Aluminum Alloy

Performance & Technology

Battery Power Levels

- 10
- 50
- 80

Rainy Day Autonomy

8 days

Control Options

Remote Control, Light Control, Human Body Induction, 3 Lighting Modes, Timer Setting

Compliance & Standards

Certifications

CE • RoHS
