

# Residential Ceiling Fan with Three-Speed Control

This ceiling fan provides quiet operation due to its double-capacitor speed control. It features three-speed settings, double-sealed bearings, and a 12-degree blade pitch for greater air movement.

## Product Overview

### Residential Ceiling Fan

This residential ceiling fan is engineered for quiet, efficient operation, making it an ideal choice for home environments. Featuring a three-speed control system and an integrated obverse switch, it allows for versatile airflow management. The inclusion of double-seal bearings ensures smooth performance without the need for maintenance or oiling.

## Performance & Control

Speed Control	3 levels
Operational Features	Quiet Operation, Double-Capacitor, Obverse Switch

## Technical Specifications

Blade Pitch	12 degrees
Bearing Type	Double seal bearings

## Installation

Lead Wire Length	26 inches
