

Residential Gas Water Heater with Digital Display

This wall-mounted gas water heater is designed for residential use. It provides efficient heating and reliable performance with features such as electronic ignition and adjustable water temperature control.

Overview

High-Efficiency Residential Solution

This residential gas water heater is engineered for reliable and efficient hot water delivery. It features an intuitive digital display for precise temperature control and electronic ignition for seamless operation. Designed with safety in mind, the unit includes flame failure and overheat protection, ensuring peace of mind for homeowners.

Technical Specifications

Waterproof Rating

IPX4

Rated Gas Pressure	2000 Pa
Rated Heat Load	16 kW
Rated Voltage	220 V
Power Frequency	50 Hz
Rated Current	0.5 A

Safety & Features

Safety Features	Flame Failure Protection, Overheat Protection, Electronic Ignition
Control Interface	Digital Temperature Display
