

# Residential Gas Water Heater with Digital Display

This gas water heater provides a reliable hot water supply. It features a digital display for temperature control and status monitoring.

## ADDITIONAL IMAGES

## Overview

### Efficient Residential Hot Water Solution

This residential gas water heater is engineered for consistent performance and energy efficiency, featuring an intelligent constant temperature control system. Designed with a slim profile for space-saving installation, it offers reliable on-demand hot water suitable for modern homes. The unit includes a digital display for easy temperature monitoring and incorporates multiple safety mechanisms to ensure secure daily operation.

## Performance & Efficiency

### Key Performance Metrics

**88 %**  
Heat Efficiency

Heat Efficiency	88 %
Combustion Technology	Energy saving combustion technology

## Safety Features

Integrated Safety Features	Over-heating protection, Flameout protection, Anti-dry burning protection, Anti-freezing protection
----------------------------	-----------------------------------------------------------------------------------------------------

## Technical Specifications

### Installation Features

- Balance exhaust system
- Low water pressure start-up
- Slim design

Control System	Intelligent constant temperature control with digital display
