

Resin-Bonded Diamond Squaring Wheel for Tile Edge Finishing

This resin-bonded diamond squaring wheel is used for squaring edges on inner wall tiles and rustic tiles without water. It offers good sharpness, quick heat dispelling, and low working noise for smooth edge finishing.

Product Overview

Professional Dry Squaring Solution

This resin-bonded diamond squaring wheel is specifically engineered for efficient dry edge finishing on inner wall tiles and rustic tiles. It delivers exceptional sharpness and heat dissipation, ensuring a smooth, chip-free edge without the need for water cooling. Designed for precision, the wheel effectively removes saw marks while maintaining low operational noise.

Technical Specifications

Dimensions (D*T*H*X)

- 200*10*12*80mm
- 200*10*12*140mm
- 250*10*12*80mm
- 250*10*12*140mm

Grit Range

60# - 170#

Minimum Order Quantity

100 PCS

Performance Features

Suitable Materials

Inner Wall Tiles • Rustic Tiles

Product Highlights

Resin-Bonded, Dry Cutting, Low Noise, Quick Heat Dissipation, Chip-Free
