Overview

Advanced Retail Loss Prevention

This high-performance Electronic Article Surveillance (EAS) system utilizes 8.2MHz Radio Frequency technology to provide a robust anti-theft solution for modern retail environments. Featuring a sleek acrylic design with integrated warning lights, it offers both a visual deterrent and reliable detection of tagged merchandise. The system is designed for wide coverage at store exits, ensuring high security while maintaining an unobtrusive aesthetic for customers.

Technical Specifications

Simple installation process involving base cover removal and power cable connection.

Operating Frequency

8.2 MHz
Frequency

Unit Dimensions

161 x 38 x 2 cm (H x W x D)

Construction Material

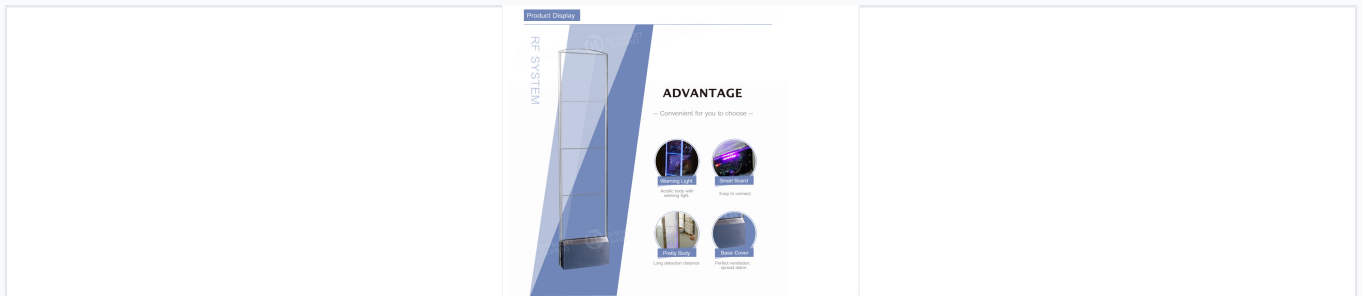

Acrylic

Detection Performance

Detection Distance by Tag Type

Tag Type	Detection Range (Dual)
RL4*4 Labels	1.2 - 1.5m
Mini Square Tags	1.2 - 1.4m
Large Square Tags	1.8 - 2.0m

Key Features

The system features a transparent acrylic body with integrated warning lights and a smart board for easy integration.

System Highlights

- Integrated warning light for immediate visual alerts
- Smart board technology for easy connectivity
- Base cover designed for ventilation and alarm sound propagation
- Jammer alarm detection to prevent bypass attempts
- Wide detection distance for large entrances

RF Ecosystem

A full range of compatible RF accessories including labels, hard tags, and deactivators are available for this system.

Compatible RF Components

RF Labels, RF Deactivators, Hard Tags, Detachers, Stoplocks, Safer Containers, Hooks

Compliance & Quality

Certifications

CE • ISO • ROHS • SGS • MSDS

Logistics & Supply

Order Lead Times

Quantity (Sets)	Est. Time (Days)
1 - 10	10
11 - 50	15
Over 50	Negotiable

Supply Ability 5000 sets per week

Packaging Details 1pc/ctn, 24.0kgs, 165*45*15cm
