Product Overview

Professional Thermal Protection

This retractable auto sun shade is engineered to provide superior thermal insulation and protection against light-induced damage. Utilizing a high-brightness reflective film with a silver coating, the curtain effectively blocks intense sunlight, infrared radiation, and harmful ultraviolet rays. Its automatic telescopic design ensures convenience and ease of use, making it an ideal solution for maintaining a comfortable cabin temperature during hot conditions.

Technical Specifications

Protection Against	UV Radiation, Infrared Radiation, Intense Light, Thermal Insulation
Material Composition	High-brightness reflective film with silver coating and black metal frame construction

Installation and Compatibility

Included Mounting Accessories

- Suction cups
- Installation clips

Mechanism	Automatic telescopic retractable
