Product Overview

Professional Grade Utility Cutter

This extra heavy-duty utility knife is engineered for demanding tasks, featuring an 18mm high-carbon tool-grade blade that delivers superior cutting performance. Designed for safety and control, the cutter includes an auto-lock mechanism and a robust metal chamber for enhanced blade security. The ergonomic, soft-touch handle provides an anti-slip grip, making it an ideal tool for gardening, wood cutting, and general heavy-duty material processing.

Technical Specifications

Blade Width	18 mm
