Product Overview

Industrial-Grade Retractable Hose Reel

This retractable hose reel is engineered for demanding industrial and automotive environments, supporting both air and water applications. It features a robust construction with a steel mounting bracket, ensuring secure installation on walls or ceilings. The automatic rewind mechanism and integrated locking system provide convenient hose length management, keeping workspaces organized, safe, and efficient.

Technical Specifications

Construction Materials

- Durable steel mounting bracket
- High-quality rubber hose
- Robust outer frame

Key Features

Automatic Rewind • Locking Mechanism • Wall/Ceiling Mountable

Media Compatibility

Air, Water

Applications

Suitable Environments

- Industrial Workshops
- Automotive Garages
- Pneumatic Tool Stations
