

Retractable Multi-Outlet Cord Reel

This retractable cord reel is designed for power distribution. It features a durable housing, automatic rewind mechanism, adjustable cord stop, and a multi-outlet power block.

Product Overview

Professional Workshop Power Solution

This retractable multi-outlet cord reel is designed to streamline power distribution in busy workshops and garages. Featuring a durable housing and an automatic rewind mechanism, it helps maintain an organized workspace while effectively reducing tripping hazards. The unit includes a multi-outlet power block, making it an ideal choice for connecting multiple tools and devices simultaneously.
