

# Retractable Power Cord Reel with Circuit Breaker

This retractable cable reel is designed for power distribution in workshops and garages. It features a durable housing, automatic rewind mechanism, a swivel mounting bracket, a standard power outlet, and a circuit breaker for overload protection.

## Overview

### Professional Retractable Power Solution

This retractable power cord reel is engineered for efficient power distribution in demanding environments like workshops and garages. It features an automatic rewind mechanism and a swivel mounting bracket to ensure flexible positioning and a clutter-free workspace. Built-in safety features, including a circuit breaker, provide essential overload protection for reliable daily operation.

## Key Features

### Core Functionality

Automatic Rewind • Overload Protection • Swivel Mount • Retractable

## Safety & Protection

Circuit Breaker	Yes
Protection Type	Overload protection with integrated circuit breaker

## Installation & Use

Mounting System	Swivel mounting bracket for flexible positioning
Ideal Applications	Workshops, Garages, Industrial Workspaces

## Design

Housing Type	Durable protective housing
Rewind Mechanism	Automatic spring-driven rewind
