Product Overview

Industrial-Grade Steel Tape Measure

This retractable steel tape measure is engineered for precision and durability in professional industrial environments. Featuring a robust power return mechanism and a secure locking system, it allows for efficient and accurate measurements up to 7.5 meters. The dual-sided design ensures versatility for both metric and imperial users, making it an essential tool for high-demand manual labor.

Technical Specifications

Metric Length	7.5 m
Imperial Length	25 ft
Key Features	Power Return, Locking System, Dual-Sided, Retractable
Model Number	RRA7525

Manufacturing Capacity

Production Output

10 million units
Annual Tape Production
