

Retractable Temporary Inspection Warning Screen with LED Display

This retractable temporary inspection warning screen features an LED display for enhanced visibility. Its portable and retractable design allows for easy deployment and storage.

Product Overview

Smart Traffic Safety Solution

This retractable temporary inspection warning screen is engineered for high-visibility traffic control in dynamic environments. Featuring integrated LED displays, it provides clear, attention-grabbing warnings for drivers and pedestrians in construction zones or emergency areas. Its portable, retractable design ensures rapid deployment, while the durable construction is built to withstand rigorous outdoor use.

Core Features

Key Capabilities

- Integrated LED display for enhanced visibility
- Retractable design for easy storage and transportation
- Durable construction suitable for outdoor deployment
- High-impact warning signs with specialized cautionary text

Operational Details

Displayed Warning Text

l, w, f, β, , b, , L

Application

Suitable Environments

Road Closures • Construction Zones • Emergency Situations • Traffic Control
