

Retractable Wire Drum Brush with Adjustable Spread

This retractable wire brush is designed for drum sets. It features a comfortable handle and adjustable wire spread for versatile sound control.

Overview

Versatile Percussion Control

This retractable wire drum brush is designed for professional musicians seeking nuanced sound control in jazz, blues, and acoustic settings. Featuring an adjustable wire spread, it allows for a wide range of tonal textures that traditional drumsticks cannot achieve. The comfortable handle ensures ease of use during long performances, making it an essential tool for expressive drumming.
