

Retro Style Television Set

This retro television set features a dark screen, black frame, and silver base. It has a boxy design typical of older CRT televisions, with visible buttons and indicator lights on the front panel.

Product Overview

Classic Retro Design Television

This television set features a classic boxy design reminiscent of traditional CRT units, making it an ideal choice for retro-themed interiors or vintage displays. The unit is constructed with a durable black frame and a stable silver base, ensuring both aesthetic appeal and structural integrity. With visible front-panel controls and indicator lights, it offers a tactile and nostalgic user experience for professional environments.
