

Retro Style Television with Built-in Speaker

This vintage-style television features a silver finish and integrated speaker system. The screen displays black and white images, complemented by a control panel with knobs for adjusting settings.

Product Overview

A Fusion of Nostalgia and Audio Performance

This retro-inspired television set captures the timeless aesthetic of classic broadcasting equipment while integrating modern convenience. Featuring a distinctive silver finish and a robust built-in speaker system, this unit is designed to serve as both a display device and a statement piece. The authentic tactile controls allow for precise adjustment, catering to professional environments that value vintage design and reliable performance.
