

# RF Intelligent LED Panel Light

This LED panel light features RF intelligent control. It has a slim design, energy-efficient LEDs, and a durable frame.

## Product Overview

### RF Intelligent LED Panel Light

This high-performance LED panel light features advanced RF intelligent control, allowing for seamless remote adjustments of brightness and color temperature. Designed with a slim profile and energy-efficient LED technology, it offers a modern aesthetic suitable for a wide range of professional lighting applications. Its durable frame construction ensures longevity and reliability in various installation environments.

## Technical Specifications

Control Method	RF Intelligent Control
Design	Slim profile

## Compliance & Standards

### Compliance Badges

CE Certified • RoHS Compliant • FCC Compliant

Certifications	CE, RoHS, FC
