

RF LTE Switching Power Adapter

This switching power adapter is designed for RF LTE switching applications. It accepts an input voltage of 100-240VAC at 50/60Hz and provides a 12VDC output at 200mA.

Overview

RF LTE Switching Power Adapter

This high-performance switching power adapter is engineered for reliable power delivery in RF and LTE applications. It supports a wide input voltage range of 100-240V AC and provides versatile output options from 5V to 36V. Designed with safety in mind, it features comprehensive protection circuits including short circuit, over-voltage, and over-current safeguards.

Electrical Specifications

Rated Power

6 W

Maximum Power

Input Voltage Range	100-240V AC
Output Voltage Range	5-36V DC
Output Current	0.1-0.5A

Safety and Protections

Built-in Protections	Short Circuit, Over Current, Over Voltage
No Load Power Consumption	0.075 W

Environmental and Reliability

Operating Temperature	-20°C to 50°C
MTBF	100000 hours

Certifications

International Approvals
CE • EMC • RoHS • REACH

Physical Dimensions

Dimensions & Weight

Property	Value
Dimensions	84 x 72 x 24 mm
Weight	210g
