Overview

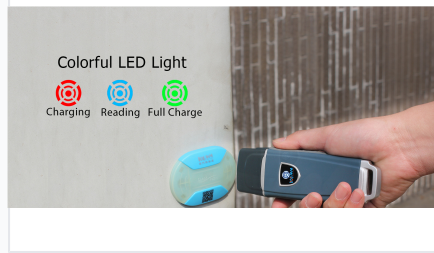

Professional Guard Tour Management

This RFID-based guard tour system is designed for reliable security personnel monitoring and access control. Featuring a ruggedized, waterproof construction with an IP67 rating, the device ensures durability in harsh environmental conditions. The system utilizes advanced data logging to accurately record patrol routes, timestamps, and incident reports, providing essential insights into patrol effectiveness and security compliance.

Technical Specifications

8 Years in Market,
0.04% Return Rate

IP67 It is strict for every detail.

Engineered for durability with an IP67 rating, ensuring protection against dust and water immersion.

Intuitive LED feedback system: Blue for reading, Red for charging, and Green for fully charged.

Drive-free magnetic USB connection provides faster, more reliable data uploads.

Battery Performance

30 days

Patrol Time

2 hours

Charging Time

1150 mAh

Battery Capacity

Protection Rating

IP67 • Waterproof • Dustproof • Shatter-resistant • Vandal-resistant

User Feedback

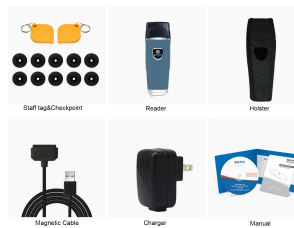

- Three-color LED status indicator
- Vibration prompts
- Reading confirmation
- Low battery alert
- Charging status

Data Transfer

Magnetic USB connector

Kit Contents

Perfect Equipment

The complete kit includes all necessary components for immediate deployment.

Standard Kit Components

Reader, Staff tags, Checkpoints, Holster, Magnetic cable, Charger, Manual
