Product Overview

Professional Grade RG6 Coaxial Distribution

This high-performance RG6 coaxial cable is engineered for robust signal transmission in CATV, CCTV, and satellite communication systems. Featuring a single-conductor design with flexible dielectric insulation, it ensures reliable connectivity for both indoor and outdoor installations. The inclusion of high-quality F-connectors provides a secure, low-loss interface compatible with standard television and broadband equipment.

Technical Specifications

Braid Coverage

- 70%
- 90%
- 95%

Inner Conductor	1.02 Bare Copper / CCS
Dielectric Diameter	4.68 mm
Jacket Material	PVC, PE
Impedance	75 Ohm

Compliance and Standards

Certifications

CE • RoHS

Available Connectors	F-Connector, BNC
