

RGB LED Wall Washer Light

This wall washer features 18 1-watt LEDs for vibrant color mixing. Its durable aluminum housing ensures efficient heat dissipation and long-lasting performance.

Product Overview

High-Performance Architectural Lighting

This high-intensity RGB LED wall washer is engineered for both architectural and entertainment lighting applications, providing vibrant color mixing and dynamic effects. Built with a durable aluminum housing, it ensures efficient heat dissipation and long-lasting performance in demanding environments. Its versatile design and IP65 waterproof rating make it an ideal solution for illuminating building facades, stages, and various landscape projects.
