

RGB UFO LED Moving Head Stage Light

This moving head light features eight 3-watt RGB LEDs, creating a range of colors and effects. Its moving head design allows pan and tilt movements for extensive coverage.

Overview

Dynamic Stage Lighting Solution

The 8x3W RGB UFO LED Moving Head Light is a versatile fixture designed to elevate entertainment and stage applications. Featuring eight 3-watt RGB LEDs, this light produces a vibrant spectrum of colors and dynamic effects suitable for clubs, concerts, and professional events. Its moving head functionality enables extensive pan and tilt coverage, while DMX control allows for precise programming and seamless synchronization with other lighting equipment.
