

RGBW LED Par Can Stage Light

This stage light features 24 high-power 12W LEDs, each capable of producing a full spectrum of colors through its 4IN1 (RGBW) configuration. The par can design ensures focused light projection and is suitable for stage, architectural, and event lighting.

Overview

Professional RGBW Stage Lighting

The 24x12W 4IN1 LED Par Can Light is a high-performance fixture designed for professional entertainment and stage applications. Featuring 24 high-power LEDs with full RGBW color mixing capabilities, it delivers dynamic lighting effects and precise color control. Its robust construction ensures reliability in demanding environments, making it an ideal choice for stage, architectural, and event lighting.
