

# RGBW Quad-Color LED Moving Head Beam Light

This professional lighting fixture is designed for entertainment and stage applications. The moving head design allows for dynamic beam movement and precise positioning, creating stunning visual effects.

## Overview

### Professional Moving Head Beam Light

This high-performance moving head beam light features twelve 10W CREE RGBW quad-color LEDs, delivering vibrant and versatile lighting effects. Designed for professional stage and entertainment environments, it offers dynamic movement with 630-degree pan and 240-degree tilt capabilities. With multiple control modes including DMX512 and music synchronization, it is an ideal solution for clubs, theaters, and event production.

## Technical Specifications

Light Source	12 x 10W CREE RGBW Quad-Color LEDs
LED Lifespan	50000 hours
Max Power Consumption	150 W
Input Voltage	100-240VAC 50/60Hz
Fuse	T3.15A

## Control & Operation

### Control Modes

DMX512 • Music Control • Master/Slave

DMX Channel Modes	9 Channel, 12 Channel, 28 Channel
Dimming Range	0-100%

## Movement & Mechanics

Pan Range	630 degree
Tilt Range	240 degree

## Physical Attributes

Fixture Dimensions	304 x 267 x 168 mm
Net Weight	5.8 kg
Cooling System	3 built-in silent fans with forced air cooling
