

Ride-On Concrete Power Trowel

This ride-on power trowel is designed for smoothing and finishing large concrete surfaces. It features a comfortable seat and intuitive controls for operator ease of use.

Product Overview

Ride-On Concrete Power Trowel

The Ride-On Power Trowel (Model HP-TS100) is a high-performance solution engineered for smoothing and finishing large-scale concrete surfaces. Built with a heavy-duty gearbox and spider assembly, this machine ensures exceptional reliability in the most grueling construction environments. It features an adjustable sliding seat and ergonomic controls to maintain operator efficiency throughout long working sessions.

Technical Specifications

Model Identifier	HP-TS100
Gearbox Type	Heavy Duty, Low Maintenance

Operator Comfort and Control

Seat Configuration	Adjustable sliding seat (Front-to-back)
Adjustment Mechanism	Foldable wheel controls for ergonomic pitch adjustment

Maintenance and Safety

Safety Enhancements

- Enclosed blade safety cage
- Conveniently located tool kit
- High-torque power transmission

Tool Storage	Yes
