Overview

Compact Ride-On Asphalt Compactor

This ride-on double drum compactor is engineered for precision and efficiency in small-scale paving and compaction tasks. Featuring a high-performance engine and hydraulic transmission, it offers smooth operation and excellent maneuverability in confined spaces. Built with high-quality bearings and corrosion-resistant surface treatment, this machine ensures long-term reliability for road maintenance, landscaping, and construction projects.

Key Features

Engine Options

Gasoline • Diesel

Design Highlights

- Front and rear walking capability
- Luxury adjustable seating
- Corrosion-resistant surface spray treatment
- High-performance imported bearings

Transmission

Hydraulic with stepless speed change

Steering

Hydraulic

Applications

Suitable Applications

Asphalt Paving, Foundation Ditches, Road Construction, Sports Field Leveling, Pipe Culvert Backfill, Landscape Construction, Sidewalk Paving
