

Rifle Scope with Adjustable Magnification

This is a precision optical instrument designed for aiming firearms. It features adjustable magnification, allowing users to zoom in on targets at various distances.

Product Overview

Precision Optical Performance

This precision optical instrument is engineered for enhanced aiming capabilities across various shooting environments. Featuring adjustable magnification, it allows users to zoom in on targets at diverse distances with clarity. The unit is built with a durable housing and high-quality lenses to ensure reliable performance for hunting and target shooting applications.

Technical Specifications

Adjustment Controls

- Adjustable magnification
- Windage adjustment knob
- Elevation adjustment knob

Construction

Durable Housing, High-Quality Lenses

Applications

Primary Applications

Hunting • Target Shooting • Precision Aiming
