

Right Angle TNC Female Coaxial Connector

Right angle TNC female connector featuring a 7/16-28UNEF thread. The connector has a diameter of $\text{Æ}12$ and a length of 24.7.

Product Overview

Right Angle TNC Female Connector

The Right Angle TNC Female Coaxial Connector is a precision-engineered component designed for reliable signal transmission in demanding RF applications. Featuring a standardized 7/16-28UNEF thread, this connector ensures a secure and stable connection in compact spaces. Its right-angle configuration is ideal for installations where cable routing efficiency and space management are critical priorities.

Physical Dimensions

Thread Specification	7/16-28UNEF
Diameter	12 mm
Length	24.7 mm

Key Features

Connector Gender	Female
Orientation	Right Angle
Connector Family	TNC, Coaxial
