

RJ45 Ethernet Cable Crimping Machine

This ethernet patch cable crimping machine is specialized for crimping LAN and telephone cables. The crimper supports easy mold changes for various connector types.

Product Overview

Professional Ethernet Crimping Solution

This high-precision crimping machine is designed for efficient termination of Cat5e and Cat6 RJ45 ethernet cables, as well as RJ11 telephone lines. Featuring a quiet and reliable direct motor drive, it offers easy tool-less mold changes to accommodate various modular plug types including standard and UK configurations. Its compact design ensures easy relocation, making it an ideal choice for streamlined cable assembly environments.

Performance Metrics

Operational Specs

500 kgs

Crimping Force

25 mm

Stroke Length

90 W

Power Consumption

Technical Specifications

Dimensions & Weight

- Size: 300 x 160 x 160 mm
- Weight: 12 kg

Power Input

220V/50Hz, 110V/60Hz

Compatibility & Features

Supported Connectors

- 2P2C
- 8P8C
- RJ11
- RJ45
- Standard modular cord plugs
- UK type plugs

Compliance

CE • SGS
