

RJ45 Ethernet Cable for Network Connectivity

This Ethernet cable features RJ45 connectors on both ends for network connectivity. It facilitates data transmission between devices and has a durable green jacket with transparent connectors.

Product Overview

High-Performance Network Connectivity

This RJ45 Ethernet cable is designed to provide reliable network connectivity for professional environments. Featuring a durable jacket that supports color-coding, it helps organize complex wiring systems while protecting plug bonds on crowded patch panels. Built to meet TITA568A standards, these cables ensure consistent data transmission performance for various networking applications.

Technical Specifications

Standards Compliance	TITA568A
Shielding	Single-shielded

Product Variants

Available Cable Lengths

Model ID	Length (m)
KF.TB-0025	0.25
KF.TB-0030	0.3
KF.TB-0050	0.5
KF.TB-0100	1
KF.TB-0150	1.51
KF.TB-0200	2
KF.TB-0300	3
KF.TB-0500	5
KF.TB-0700	7
KF.TB-1000	10
KF.TB-1500	15
