Product Overview

Professional Road Sweeper Brush Section

Engineered for high-efficiency cleaning, this road sweeper brush section features a high-density bristle arrangement designed to provide superior elastic resistance and durability. The brush is built with anti-wear and anti-corrosion properties, ensuring it cleans effectively without damaging pavement surfaces. Its robust support structure offers stability during operation, while its flexible, adjustable design allows for automatic adaptation to road gradients.

Technical Specifications

Physical Dimensions

Dimension Type	Value	Unit
Width	90	mm
Thickness	25	mm
Length	360	mm

Performance Features

Operational Benefits

- Unique punch density bristle arrangement for thorough cleaning
- High wear-resistant bearing capacity with solid support wheels
- Automatic adjustment function for pavement cross slope gradients
- Flexible mounting compatible with trucks, skid steers, and tractors
- Anti-corrosion and anti-wear material composition

Compatibility & Usage

Compatible Equipment	Trucks, Skid Steer Loaders, Large Tractors, Snow Shovels, Snow Roll Systems
