

# Roadside Emergency Warning Triangle Kit

This kit includes a reflective red triangle and a supporting stand for roadside safety. It is designed to alert other drivers of a vehicle breakdown or emergency.

## Product Overview

### Essential Roadside Safety

This roadside emergency warning triangle kit is a vital safety tool designed for high visibility during vehicle breakdowns. The reflective red design ensures clear signaling to oncoming traffic, significantly reducing the risk of accidents in low-light conditions. Compact and portable, the kit includes a sturdy support stand and a dedicated carrying case, making it an ideal inclusion for any commercial or personal vehicle emergency fleet.
