

Roadway Lighting Pole with Multi-Fixture Design

This light pole is designed for road and street lighting applications. It features a slender pole with multiple light fixtures at varying heights to maximize illumination efficiency.

Product Overview

Modern Roadway Illumination

This roadway lighting pole features a sophisticated multi-fixture design engineered for urban and suburban environments. With a tall, slender profile and adjustable mounting heights, it provides efficient, directed light distribution to enhance visibility and safety. Its sleek, contemporary aesthetic integrates seamlessly into modern infrastructure while ensuring reliable performance.

Design & Construction

Design Style	Modern, sleek, contemporary
Application	Urban, Suburban, Roadway, Street Lighting

Technical Features

Fixture Configuration	Multi-fixture
Mounting Capability	Variable height mounting
