Product Overview

Smart Automated Cleaning Solution

The C260 is an intelligent robot vacuum cleaner designed for comprehensive, hands-free floor maintenance across hardwood, tile, and carpeted surfaces. Featuring a 2-in-1 sweeping and mopping system, it efficiently removes dust, debris, and pet hair with 1000pa suction power. Equipped with advanced gyro-navigation and multiple sensor arrays, it reliably avoids collisions, prevents falls, and overcomes obstacles up to 1.5cm high.

Performance

Powerful 1000pa suction for effective dust removal.

Versatile dual-cleaning system for polished floors.

Suction Power

1000 Pa
Suction

Cleaning Modes

Sweeping, Mopping, Spot Cleaning, Edge Cleaning, Automatic

Navigation and Safety

Intelligent sensors prevent collisions with furniture.

Six anti-drop sensors ensure safe operation near stairs.

Large wheels allow the vacuum to roll over carpets and ledges up to 1.5cm.

Safety Systems

Anti-collision • Anti-drop • Obstacle Avoidance

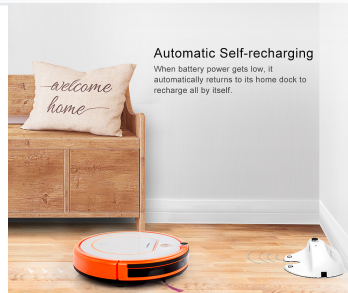

Navigation System

Gyro Navigation

Maximum Threshold Height

1.5 cm

Features

Automatic self-recharging when battery is low.

Battery and Power

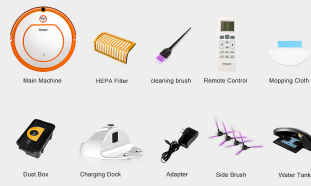

- Automatic self-recharging
- Returns to dock when battery is low

Supported Surfaces

Hardwood, Tile, Carpet

Package Contents

Packing List

Everything included in the package for setup and maintenance.

Included Items

- Main Machine
- HEPA Filter
- Cleaning Brush
- Remote Control
- Mopping Cloth
- Dust Box
- Charging Dock
- Adapter
- Side Brush
- Water Tank
