

Robotic Vacuum Cleaner Set with Dock and Water Tank

This set includes a robotic vacuum cleaner, charging dock, remote control, and a water tank attachment. The robotic vacuum cleaner features a top-mounted control button and is designed for easy docking and recharging.

Product Overview

Comprehensive Robotic Cleaning Solution

This all-in-one robotic vacuum cleaner set is engineered for efficient home and office floor maintenance. The package includes the robotic unit, a dedicated charging dock for automated power management, a remote control for precise operation, and a specialized water tank attachment for mopping capabilities. Its sleek design, featuring a signature clean button, ensures intuitive user interaction and reliable performance for daily cleaning tasks.
