Intuitive LCD screen and touch controls for easy operation.

Smart Automated Cleaning Solution

This advanced robotic vacuum cleaner offers a comprehensive 4-in-1 cleaning experience, including sweeping, vacuuming, dry mopping, and UV sterilization. Designed with a low-profile height of only 8.7 cm, it effortlessly glides under furniture to clean hard-to-reach areas while operating at a whisper-quiet noise level of under 50 dB. Equipped with intelligent sensors, it automatically detects obstacles, avoids stairs, and returns to its base for self-charging, ensuring consistent floor maintenance without manual labor.

Technical Specifications

Operating Time

110 min

Average Runtime

Power Consumption

27.5 W
