

Robotic Vacuum Cleaner with Remote Control

This robotic vacuum cleaner provides a comprehensive cleaning solution with sweeping, vacuuming, and mopping functions. It is equipped with an extra-large dustbin and features scheduled cleaning, stair avoidance, and virtual wall induction for efficient operation.

Dirt-detect, UV lamp disinfection, sweeping, vacuuming and mopping at same time, extra big dustbin, working time can be supported, LCD display, non-collision bumper
Robot Vacuum Cleaner (M-788)
Features
 • The vacuum can detect the dirty area and increase the clean intensity during the cleaning process.
 • Automatically sweep, vacuum and mop the floors at the same time. It can pick up dirt, dust, pet hair and other debris.
 • The robot will search the charging base for recharging by itself when power is down or the cleaning task was finished.
 • It can be preset to work at the particular time of set-up days so neither you are at home or not.
 • The robot will escape automatically by itself when it runs into the furniture bottom or something else.
 • Wall-Following clean function provide a fantastic cleaning efficiency to the foot of wall and obstacle.
Remote Control is available:
 • Stair Avoidance Detector
 • Virtual Wall Induction
 • Edge cleaning program
 • UV lamp disinfection
 • LED Display
 • Full-time capacity of dustbin (1.0L)
 • Non-collision bumper
 • The walking speed can be adjusted as you like.
 • Self-adjusting cleaning head to traverse different floor
Accessories
 Charge time: 4 hours
 Working time: 70minutes
 Battery capacity: Li battery 2000mAh
 Dust capacity: 1L
 Unit size: 35*10.5CM
Accessories
 Virtual wall unit x1
 USB charging line(x1)
 Remote controller x1
 Mop(x1)
 Side brush x2
 Extra filter x1
 Mopping cloth x 2
 Mopping roller x1
 Dust brush x1

Product Overview

M-788 Robotic Cleaning System

The M-788 robot vacuum provides an automated, multi-functional cleaning experience capable of sweeping, vacuuming, and mopping simultaneously. Featuring intelligent dirt detection and a built-in UV lamp, it effectively removes dust, debris, and pet hair while disinfecting floor surfaces. Designed for versatility, it includes advanced navigation features like stair avoidance, wall-following, and automatic recharging, making it a robust solution for professional environments.
