Product Overview

Automated Window Cleaning Solution

This advanced robotic window cleaner features a high-performance brushless motor and intelligent path planning to ensure efficient, hands-free cleaning. Designed for versatility, it offers multiple cleaning modes and seamless integration with the Tuya App for remote control convenience. With built-in UPS power protection and high-strength safety equipment, it provides a safe and professional-grade cleaning experience for various glass surfaces.

Technical Performance

Suction Power

2800 PA

Suction Pressure

Cleaning Modes

- Z Mode
- N Mode
- Z+N Mode

Cleaning Speed

3 sqm/min

Connectivity & Control

Control Options

Tuya App, Infrared Remote

Safety & Hardware

Power Specifications

Parameter	Value
Input Voltage	100~240VAC
Operating Voltage	DC 24V
Power Consumption	75W

Uninterruptible Power System

Yes

Device Dimensions

24.5 x 24.5 x 7 cm
