

Rock-Shaped Outdoor Speaker Enclosure

Acoustically transparent rock-shaped enclosure designed for outdoor audio systems. Constructed from durable, weather-resistant materials to withstand environmental conditions.

Product Overview

Natural Integration for Outdoor Audio

This rock-shaped speaker enclosure is engineered to provide discreet, acoustically transparent housing for outdoor audio systems. Constructed from weather-resistant materials, it ensures longevity while blending seamlessly into garden, landscape, or commercial outdoor environments. The internal design supports organized cable management and proper placement to maximize audio clarity and minimize sound distortion.

Physical Properties

Key Design Elements

- Rock-shaped aesthetic for natural blending
- Integrated internal cavity for components
- Dedicated cable management system

Material Characteristics

Acoustically Transparent, Weather-Resistant, Durable

Application

Component Suitability

Speaker Drivers • Electronic Audio Components
