Overview

High-Efficiency Roller Top Conveyor Belt

This modular plastic conveyor belt features an integrated roller-top design, engineered to facilitate smooth and efficient product movement while significantly reducing friction. Designed for diverse industrial applications, it offers exceptional durability with a load capacity of up to 1.2 tons per square meter. Its modular construction allows for easy customization and maintenance, making it a reliable solution for warehousing, food processing, and logistics operations.

Technical Specifications

Pitch	50.8 mm
Thickness	26.5 mm
Minimum Width	251 mm
Rod Diameter	5.8 mm
Open Area	0%
Available Materials	PP, POM, PE, PA
Working Temperature Range	-40°C to 260°C

Performance Metrics

Maximum Load Capacity

1.2 tons/m²
Load Capacity

Regulatory Approvals

FDA • EU

Configuration

Available Colors

- White
- Blue
- Gray
- Nature
- Dark-brown

Compatible Sprockets

- 6T
- 8T
- 10T
- 12T
- 6T-N
- 8T-N
- 10T-N
- 12T-N

Application

Suitable Industries

Category	Industries
Food Industry	Meat, Poultry, Sea Food, Bakery, Snack Food, Fruit & Vegetables
Non-food Industry	Automotive, Tire, Packaging, Printing/Paper, Postal, Corrugated Cardboard, Can, PET, Textile
