

Rolling Garden Work Seat with Basket and Tool Tray

This rolling garden seat features a 360-degree rotating and height-adjustable seat for comfortable gardening work. It includes a utility basket and tool tray to keep tools accessible, while its steel frame supports up to 300 lbs.

Product Overview

Ergonomic Gardening Solution

This versatile rolling garden work seat is designed to reduce physical strain while increasing productivity during outdoor tasks. Featuring a durable powder-coated steel frame and a comfortable, contoured seat, it is built for both professional landscaping and home gardening. The unit provides exceptional mobility and efficient organization through its integrated storage compartments, ensuring your tools are always within reach.
