

Roof Rack Mountable Cargo Carrier

This aluminum cargo carrier is designed for attachment to both OE and aftermarket roof racks. It has fully locking adjustable hardware and a custom fairing to reduce wind noise.

Overview

Versatile Aluminum Cargo Carrier

This premium cargo carrier is engineered for durability and convenience, featuring a lightweight, rust-resistant aluminum construction that ensures long-lasting performance. Designed with a universal fit, it attaches seamlessly to both OE and aftermarket roof racks, making it an ideal solution for various vehicle types. The included custom fairing significantly reduces wind noise, providing a quieter and more comfortable ride during your travels.
