

Rotary Cultivator Cover Shaft

This cover shaft is a spare part designed for rotary cultivators. It protects the shaft on the right side of Rotary Rx182f models.

Product Overview

Professional Grade Rotary Cultivator Components

This right-side cover shaft is a precision-engineered spare part designed specifically for rotary cultivators, ensuring optimal protection and operational efficiency. Built for durability in demanding soil conditions, this component is essential for maintaining smooth machine performance during soil preparation and cultivation tasks. It serves as a reliable replacement part to extend the service life and functional integrity of your agricultural equipment.

Technical Specifications

Essential spare parts including shafts and gears designed for durability in field conditions.

Compatible Model	Rx182f
Part Type	Right Cover Shaft
Primary Application	Rotary Cultivator, Soil Preparation, Agricultural Machinery
