

Rotary Cultivator Guard Chain Cover

This guard chain cover is designed for rotary cultivators. It protects the chain mechanism of the rotavator, ensuring smooth and efficient soil preparation.

Product Overview

Robust Protection for Rotary Cultivators

This high-quality guard chain cover is a specialized spare part designed to protect the critical chain mechanisms of rotary cultivators. Engineered for the Rx182f series, it ensures durable operation even in demanding soil conditions. This component is essential for maintaining smooth mechanical performance and extending the service life of agricultural machinery.

Compatibility

Supported Machinery Series

- Rotary tillers
- Variable-speed paddy field stubble-bury beaters
- Foldable paddy field stubble-bury cultivators
- 1GD-350 paddy field ridge shapers

Compatible Tiller Models

RX162, RX164, RX180, RX182, RX182f, RX220

Technical Details

Comprehensive set of agricultural spare parts designed for rotary tiller maintenance.

Design Focus

High-Durability • Agricultural-Grade • Precision-Engineered

Part Category

Guard Chain Cover / Rotary Tiller Accessory
