## Overview

### Professional Grade Rotary Hammer Chisels

These high-quality chisels are designed for heavy-duty demolition and masonry work, offering exceptional durability and performance. Compatible with rotary and demolition hammers, they are ideal for breaking concrete, brick walls, and ground surfaces. With a variety of shank types and tip configurations available, these tools provide the versatility needed for professional-scale drilling, shoveling, and gouging operations.

## Technical Specifications

**Available Dimensions**

| Size (mm) | Tip Type |
|---|---|
| 14 x 250 | Pointed |
| 14 x 250 x 25 | Flat |
| 17 x 280 | Pointed |
| 17 x 280 x 25 | Flat |

| | |
|---|---|
| **Construction Material** | Durable Steel for long-lasting performance |

## Compatibility

| | |
|---|---|
| **Shank Compatibility** | SDS Plus, SDS Max, HEX |

## Design

**Available Shapes**

- Point Chisel
- Flat Chisel
- Big Flat Chisel
- U-Shape Chisel

## Applications

**Target Materials**

Concrete • Brick Wall • Ground

**Primary Operations**

- Hole Drilling
- Shoveling
- Gouging
- Breaking
- Demolition
