

Rotary Hammer Drill

Heavy-duty rotary hammer drill designed for drilling and demolition work in concrete, masonry, and stone. Features a powerful motor, variable speed control, and a safety clutch for overload protection.

Product Overview

Professional Rotary Hammer Drill

This heavy-duty rotary hammer drill is engineered for demanding drilling and demolition tasks in concrete, masonry, and stone. It features a robust motor, variable speed control, and an integrated safety clutch for reliable overload protection. Designed for professional construction and renovation environments, this tool provides the power and durability required for rigorous daily use.

Technical Specifications

Max Drilling Diameter	26 mm
Model Identifier	DZG05-26

Features

Key Features	Variable Speed Control, Safety Clutch, Overload Protection, Heavy-Duty Design
--------------	---

Applications

Suitable Materials

- Concrete
- Masonry
- Stone
