

Rotary Hammer for Concrete and Masonry

This rotary hammer is designed for drilling and chiseling concrete, masonry, and similar hard materials. It features a high-performance motor and variable speed control for efficient and versatile operation.

Overview

Professional Rotary Hammer

This robust rotary hammer is engineered for high-performance drilling and chiseling in concrete and masonry applications. Featuring a powerful motor and variable speed control, it provides the versatility required for demanding construction and renovation tasks. With an ergonomic design and integrated depth gauge, it ensures precision and comfort during extended professional use.

Performance

Performance Highlights

900 W

Input Power

1000 rpm

Max No-load Speed

3.5 Kg

Weight

Technical Specifications

Drilling Capacity

Material	Max Diameter
Concrete	26mm
Steel	13mm
Wood	30mm

Voltage & Frequency

230V / 50Hz

Logistics

Packaging & Transport

- Packing Size: 44 x 44 x 36 cm
- Pieces per carton: 3
- Capacity per 20' container: 1300 units
